What is Income Protection insurance?

Income Protection insurance helps to protect you and your family by paying up to 75% of your income if you're unable to work. This can help cover your living expenses, such as your mortgage, school fees and car repayments. By providing you with a monthly payment, income protection allows you to focus on your recovery.

Do you need Income Protection insurance?

- have a partner, family or dependants
- have a mortgage or any other personal debt
- have a business or self employed
- would need money to live if you were unable to work
- don't have adequate savings to cover unexpected expenses.

Income protection insurance provides peace of mind for you and your family and allows you to focus on recovery if you become sick or injured. Speak to Nick Molloy or Amy Glanvill and we can help find the right policy for you.

We can also review your current insurance policies to make sure they still meet your needs.
